

# ITEM NO. : B5348DU

## ASSEMBLY INSTRUCTIONS

1. Install the mounting plate (A) on the outlet box with the screws (B).
2. Loosen the hex nuts around the bolts (C) and screw in or unscrew the bolts from the junction box to get the right length for installation.
3. Connect the fixture wire to the circuit wire with the wire nuts (D): black wire with live wire, white wire with neutral wire, ground wire with ground wire. Turn the wire nuts to twist the wires together. Wrap the wire nuts with insulated rubber tape.
4. Fix the lamp body (E) to the mounting plate (A) with the ball nuts (F).
5. Attach the glass shade (H) to the lamp body (G) by screwing the acrylic ring (J) into the lamp body. (In view of thermal expansion and contraction, avoid securing the glass shade too tight, otherwise you may break the glass shade. )

*Please consult a qualified Electrician if you are not familiar with electrical wiring.*
